

What kind of profile shot are we looking for?

Think passport photo with a friendly smile and you can't go wrong.

The first two photos are excellent examples of what we mean: -

Okay – we'd let you get away with this – too cute!

If you submit photos like below you will be declined or left in pending: -

No dark sunglasses. Eyes must be visible.

Blurry or shadowy photos – forget it!

Photos taken from too far away - useless.

No family photos – we only want YOU.

No friends – we only want YOU.

We are also not accepting pics that are supposed to represent you like cartoons, animals, flowers etc. We want to see a close, clear head shot photo of you and prefer only you but a clear pic with a pet is fine. Get the photo right, answer the profile questions nicely, respectfully and with detail and you are in. 😊
